Alex,
Ship the machine to us as soon as it's completed as we have in house training as soon as it arrives and installed.

Excellent. We have set a 5/20/09 completion date. Are you planning to travel here for a machine runoff and training, or do you want us to ship the machine to you as soon as it is completed?

Alex

Nicholas,

Thanks for the information about the coating material. Did everything else on the specification sheet look alright?

Alex

Alex,
Coating Material is NVOC through Electrolube. Coating material is not solvent based, but they have an NVOC Machine Cleaner that is used to clean out the machine.

Subject: PVA Machine Specifications

Hi Nick,

I received your order for a PVA 350 from Frank Hart and I have created the preliminary machine specifications. Please look them over carefully for errors and fill in any missing information indicated by red text. Once the specifications have been completed and verified, we can begin production of your machine. If you have any questions, please let me know.

Thanks,
Alex
